

What is claimed is:

1. A gun cleaning kit comprising:  
a housing;  
a plurality of chambers disposed in the housing, the chambers defining openings; and  
at least one lid for selectively covering at least one of the openings and adapted to form a seal with the housing for minimizing the escape of odors from the at least one opening.
2. The gun cleaning kit of claim 1 further comprising a plurality of patches stored in at least one of the chambers.
3. The gun cleaning kit of claim 2 wherein the patches are separated and folded together for easy dispensement.
4. The gun cleaning kit of claim 2 wherein the patches are attached to each other with perforations therebetween and are accordion folded to simplify dispensement from the at least one of the chambers.
5. The gun cleaning kit of claim 2 wherein the patches are pre-moistened patches impregnated with gun oil.
6. The gun cleaning kit of claim 2 wherein the patches are pre-moistened patches impregnated with bore cleaner.
7. The gun cleaning kit of claim 1 further comprising a plurality of rods stored in at least one of the chambers.
8. The gun cleaning kit of claim 1 further comprising a plurality of brushes stored in at least one of the chambers.
9. The gun cleaning kit of claim 1 further comprising a plurality of jags stored in at least one of the chambers.

10. The gun cleaning kit of claim 1 wherein the lid is attached to the housing when not covering the at least one of the openings.

11. A gun cleaning kit comprising:  
a housing defining a first chamber and a second chamber;  
a lid attached to the housing and adapted to selectively close the first chamber; and  
an internal wall disposed in the housing for providing an impervious barrier between the first chamber and the second chamber.

12. The gun cleaning kit of claim 11 wherein the lid and/or the housing is adapted to seal the first chamber to minimize fumes from escaping the first chamber and inhibit evaporation therefrom.

13. The gun cleaning kit of claim 12 wherein the lid and/or the housing is adapted to provide an audible indication of when the lid forms the seal to minimize fumes from escaping the first chamber.

14. The gun cleaning kit of claim 12 wherein the first chamber is adapted to store a plurality of patches.

15. The gun cleaning kit of claim 14 wherein the patches are pre-moistened patches impregnated with gun oil.

16. The gun cleaning kit of claim 14 wherein the patches are pre-moistened patches impregnated with bore cleaner.

17. The gun cleaning kit of claim 11 further comprising means for attaching the kit to a hunter's belt attached to the housing.

18. A method of cleaning a bore of a gun comprising:  
providing a kit having chambers with sealing lids and pre-moistened patches disposed in at least one of the chambers;

removing a sealing lid from a chamber;  
removing a patch from the chamber;  
running the patch through a bore of the gun; and  
replacing the lid to seal the chamber and minimize the release of odors.

19. The method of claim 18 wherein the patch is a pre-moistened patch impregnated with bore cleaner.

20. The method of claim 18 wherein the patch is a pre-moistened patch impregnated with gun oil.
